

DNB Conference

April 2022

Experienced Leader in Chemical Recycling

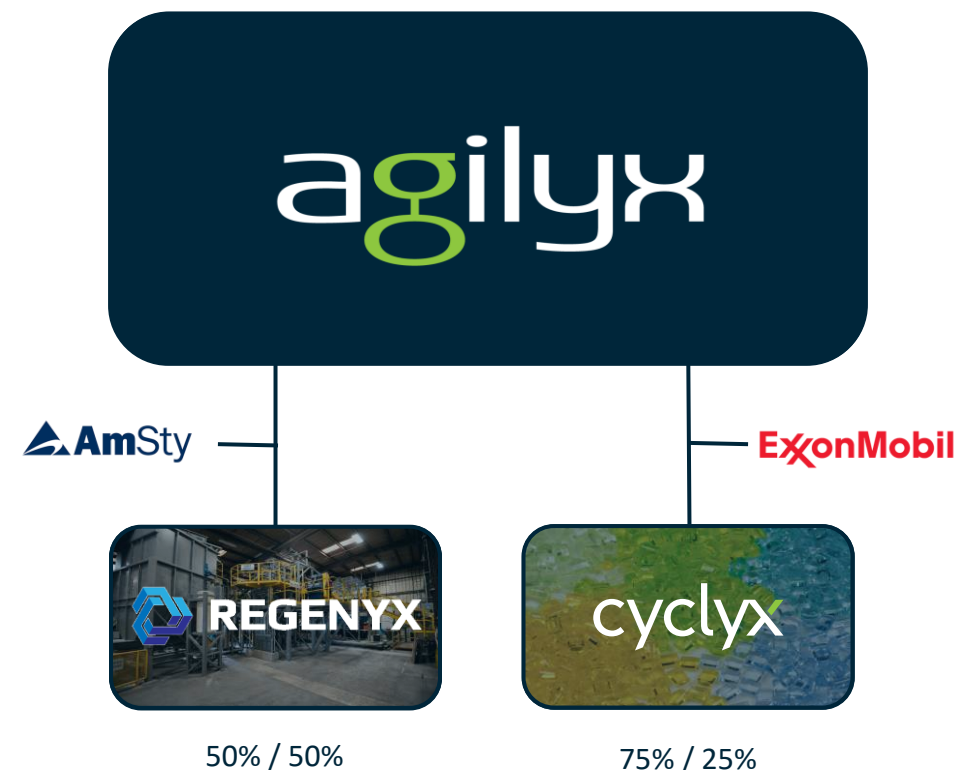

Key Partners

- Toyo
- Exxon
- Braskem
- CP Chem
- Kumho
- AmSty
- Mitsubishi Chemical
- NextChem
- Technip
- Aeon

17 Years of Technology Development

- 17 Patents for Technology
- c \$150m invested
- Leader in Advanced Recycling
- First commercial closed loop plastic to plastic facility

CORPORATE STRUCTURE

Integrated Recycling Solution

cyclyx

WASTE TO FEEDSTOCK

New waste plastic
supply chains

Consortium approach

Custom feedstock
supply for all
conversion

Cyclyx offers an **ISCC+**
chain of custody
certification

agilyx

FEEDSTOCK TO PRODUCT

Technology licensing
and supply of core
equipment

Robust feedstock
capability: MWP,
PS, PMMA, etc.

Flexible process:
depolymerization &
pyrolysis

Non catalytic,
electrified reactor

Integrated Styrene Solution with Technip enables New Markets

Polystyrene

Acrylonitrile Butadiene Styrene (ABS)

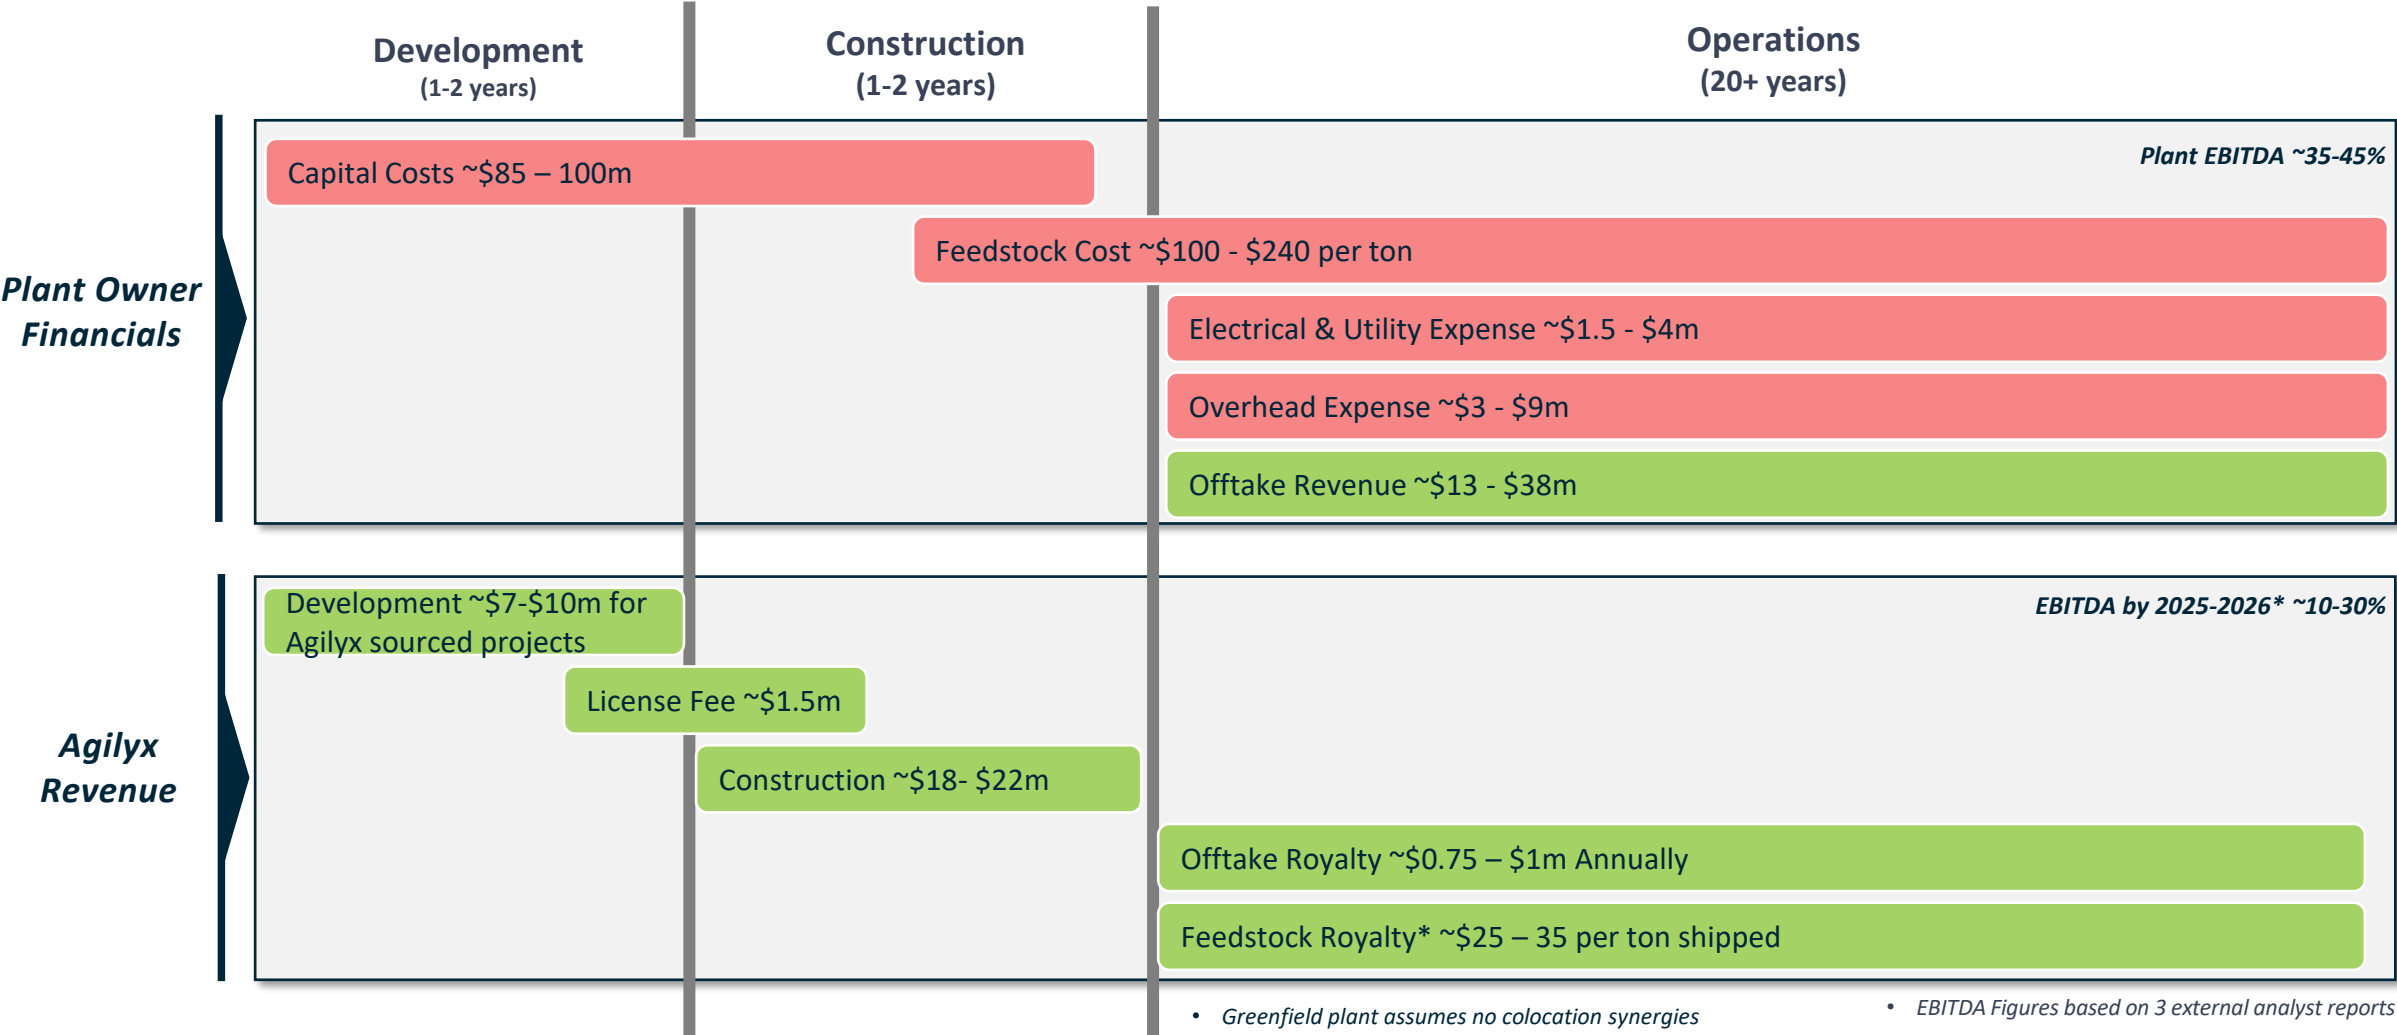

Latex

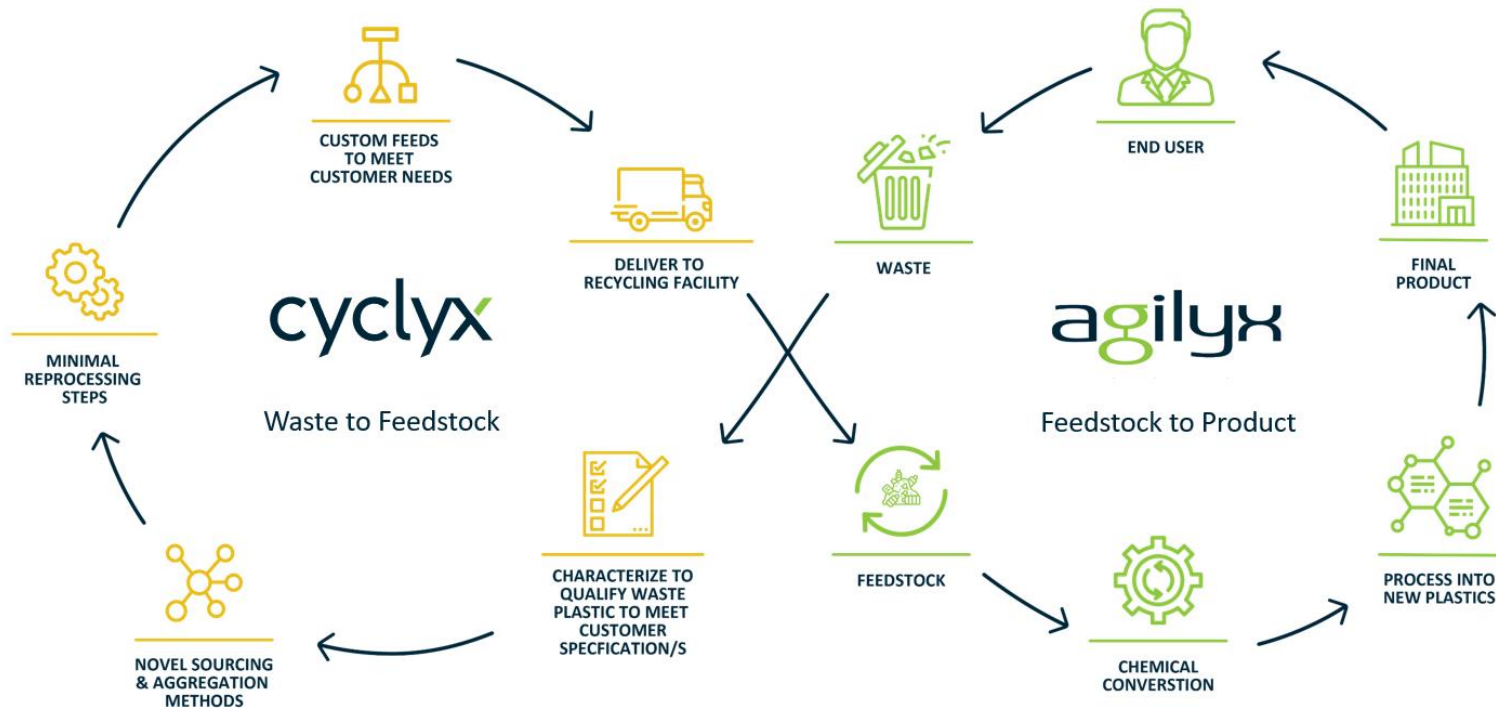

Solution Styrene-Butadiene Rubber (SSBR)

Economic profile and key metrics: 100TPD Polystyrene to Styrene Oil

Agilyx: The Integrated Solution

**Only chemical recycler
offering integrated feedstock
technology solution**

**1st commercial-scale plastic-
to-plastic recycling**

**Proven for both Mixed Waste
Plastic and Polystyrene**

agilyx
