NEWS RELEASE

Agilyx ASA – New registered share capital

OSLO, Norway – May 11, 2023 – Agilyx ASA (OSE: AGLX; OTCQX: AGXXF) ("Agilyx" or "the company"), a technology company that enables customers to recycle the most challenging post-use plastics to high value, virgin-equivalent products, announced today: Following issuance of 125,000 shares resulting from exercise of previously issued warrants, Agilyx ASA now has a registered share capital of NOK 1,705,724.08 divided into 85,286,204 shares, each with a par value of NOK 0.02.

ABOUT AGILYX

Agilyx ASA is a technology company that enables customers to recycle difficult-to-recycle post-use plastics to high value, virgin-equivalent products. With a focus on diversion and conversion of plastic waste, Agilyx is uniquely positioned with a molecular recycling technology offering and an integrated feedstock solution by way of Cyclyx, an innovative feedstock management consortium of partners that drives up global plastic recycling rates by chemically fingerprinting plastic waste and matching it to appropriate recycling processes. Agilyx was the first to establish a commercial scale closed loop plastic-to-plastic chemical recycling facility and holds 20 patents. Agilyx conversion technology utilizes pyrolysis without a catalyst and can convert mixed waste plastic to naphtha and fuels or depolymerize specific plastics such as polystyrene and PMMA (acrylic) back into virgin-quality products.
