

Agilyx ASA Releases 2023 ESEF Annual Report

OSLO, Norway – April 23, 2024 – Agilyx ASA (OSE: AGLX; OTCQX: AGXXF) (“Agilyx” or “the company”), a technology company that enables customers to recycle the most challenging post-use plastics to high value, virgin-equivalent products, announced today the release of the 2023 ESEF Annual Report. The 2023 Annual Report was released earlier in the day. Please see file attached.

ABOUT AGILYX

Agilyx ASA is a technology company that enables customers to recycle difficult-to-recycle post-use plastics to high value, virgin-equivalent products. With a focus on diversion and conversion of plastic waste, Agilyx is uniquely positioned with a molecular recycling technology offering and an integrated feedstock solution by way of Cyclyx, an innovative feedstock management consortium of partners that drives up global plastic recycling rates by chemically fingerprinting plastic waste and matching it to appropriate recycling processes. Agilyx was the first to establish a commercial-scale waste polystyrene chemical recycling facility via pyrolysis enabling closed-loop polystyrene plastic-to-plastic and holds 20 patents. Agilyx conversion technology utilizes pyrolysis without a catalyst and can convert mixed waste plastic to naphtha and fuels or depolymerize specific plastics such as polystyrene and PMMA (acrylic) back into virgin-quality products.
