Invincible VS, the hit tag fighting game and the first major game set in the award-winning *Invincible* universe, continues to build momentum following its April 30 global launch. Co-financed and co-distributed by 5th Planet Games, *Invincible VS* is developed by Skybound Entertainment's in-house game studio Quarter Up, which has just revealed the game's 2026 content release schedule, including new DLC characters arriving June 30.

New trailers showcase [Universa](#) and [The Immortal](#), the first additions to the game's fighter roster since its April launch. Fans will have the chance to preview both fighters at the *Invincible VS* booth during this weekend's [Evolution Championship Series \(Evo\)](#) tournament in Las Vegas, a key event in continuing to drive awareness of *Invincible VS* within the fighting game community.

The Evo Series represents the largest and longest-running fighting game tournaments in the world. As an official tournament partner, the best *Invincible VS* players will compete on the main stage with the winner taking home a life-sized Conquest Gauntlet trophy from Quarter Up.

When Evo concludes, *Universa* and *The Immortal* will be available to players on June 30 as part of Quarter Up's Season 1 content update, which also includes a new Endless Arcade mode and other in-game cosmetics. Quarter Up also recently confirmed Season 2 will be released this October and Season 3 in December. Each Season will add a new fighter and fresh content, continuing to deepen engagement with existing players and attract new players to the game. A [new blog post from Quarter Up](#) provides further details and summarizes all the latest *Invincible VS* news.

These developments will benefit 5th Planet Games, which continues to distribute physical editions of *Invincible VS* across key European territories including the Nordic region under its partnership agreement with Nordisk Interactive A/S; across Eastern Europe in partnership with Glomerk SA; and across the Benelux region in association with BIGBEN Interactive Belgium S.A. Physical boxed editions from 5th Planet Games and Skybound include a Standard Edition and Collector's Edition, both now available at select global retailers and comic book shops.
