Pyrum Innovations AG- Annual General Meeting 2026

Dillingen / Saar, July 14, 2026 - Pyrum Innovations AG ("Pyrum") today held its Annual General Meeting on which the shareholders present approved all agenda items with a large majority. The voting results of the Annual General Meeting are published on the website under <https://www.pyrum.net/en/investors/annual-general-meeting/>.

Furthermore, the presentation for the Annual General Meeting is also available on the company's website.

About Pyrum Innovations AG

Pyrum Innovations AG has revolutionised the recycling market for end-of-life tires. Since 2008, the company has been developing an innovative thermolysis technology that enables end-of-life tires and plastics to be recycled with virtually no emissions. The process can recover high-quality products such as TTO (ThermoTireOil) and TTB (ThermoTireBlack) which are used by renowned partners such as BASF, Continental and Schwalbe to manufacture new products. In this way, the company closes the material cycle and pursues a sustainable business model in line with climate targets. Since 2020, the first plant at the company's headquarters in Dillingen/Saar has been in continuous operation, and two further plants have been added as part of the site expansion in 2024. Prestigious certifications such as REACH and ISCC Plus prove the quality and sustainability of the products.
