Soiltech ASA (OSE: STECH)

Sandnes, Norway, 17. July 2026

Soiltech ASA has secured a two-year extension with Wintershall Noordzee B.V. in the Netherlands to continue delivering fluid treatment services on the Swift 10 jackup rig, extending the current contract until June 2028. Soiltech will utilize its market-leading Slop Treatment Technology (STT®) to perform the services. The contract extension is classified as substantial¹.

"Demand for our fluid treatment services continues to grow, reflected in our recent decision to order five additional STT units. We appreciate the confidence that Wintershall Noordzee has placed in Soiltech and look forward to continuing to deliver safe, reliable and cost-effective services under this contract", says Erik Bjøndal-Røvde, COO of Soiltech.
