About Klaveness Combination Carriers ASA:

KCC is the world leader in combination carriers, owning and operating 11 CABU and eight CLEANBU combination carriers. KCC's combination carriers are built for transportation of both wet and dry bulk cargoes, being operated in trades where the vessels efficiently combine dry and wet cargoes with minimum ballast. Through their high utilization and trading efficiency, the vessels emit up to 35% less CO₂ per transported ton compared to standard tanker and dry bulk vessels in current and targeted combination trading patterns.
