Thor Medical ASA: Primary Insider Transaction

3.9.2026 23:26:36 CEST | Thor Medical ASA | Managers' transaction

Oslo, Norway, 3 September 2026: Reference is made to the stock exchange announcements by Thor Medical ASA (the "Company") on 3 September 2026 regarding the completion of a private placement of new shares to be issued by the Company (the "Private Placement") and a retail offering through Nordnet (the "Nordnet Offering").

Scatec Innovation AS, a close associate of chairman John Andersen, has agreed to lend existing and unencumbered shares in the Company, already being traded on Euronext Oslo Børs, to Arctic Securities AS and ABG Sundal Collier ASA (the "Managers") for the Private Placement and the Nordnet Offering. The borrowed shares will be used for settlement towards investors having been allocated shares in the Private Placement and the Nordnet Offering and redelivered to Scatec Innovation AS upon registration of the share capital increase pertaining to the Private Placement and the Nordnet Offering.

In addition, Scatec Innovation AS has been allocated 5,208,333 shares in the Private Placement pursuant to a pre-commitment to subscribe for shares in the Private Placement.

Primary insider notifications pursuant to the EU Market Abuse Regulation article 19 are attached.

This announcement is subject to disclosure requirements pursuant to the EU Market Abuse Regulation article 19 (3) and the Norwegian Securities Trading Act section 5-12.

ABOUT THOR MEDICAL ASA

Thor Medical is a leading supplier of high-purity isotopes to the radiopharmaceutical industry. The Company's proprietary production platform combines advanced separation technology with industrial-scale manufacturing

capacity to deliver a reliable, scalable and cost-efficient supply of alpha-emitting radioisotopes. Thor Medical supports radiopharmaceutical companies from early-stage development to commercialization enabling scale-up of next-generation targeted cancer therapies.

Thor Medical's product portfolio includes lead-212 (Pb-212) and its precursor isotopes thorium-228 (Th-228) and radium-224 (Ra-224). Based on naturally occurring thorium, Thor Medical's production process requires neither

irradiation nor nuclear reactors, providing significant cost advantages while minimizing radioactive waste.

Guided by its vision to become a world-leading enabler for targeted cancer therapies, Thor Medical is committed to improving millions of lives by powering the next generation of precision cancer treatment with high-purity isotopes.

Thor Medical is headquartered in Oslo, Norway, and listed on the Oslo Stock Exchange under the ticker symbol TRMED. For more information, visit www.thormedical.com.
