About ReFuels

ReFuels is decarbonising Europe's truck fleet by developing, owning, and operating green BioCNG refuelling station infrastructure. We are rolling out a network of reliable and convenient stations offering renewable biomethane fuels to heavy goods vehicles. By the end of 2028, the target is to have at least 25 stations across the UK, while the long-term ambition is to become Europe's leading integrated supplier of alternative fuels for commercial fleets. For further information, please visit www.refuels.com (<http://www.refuels.com/>).
