

Proposal to apply for voluntary delisting

Reference is made to the previous stock exchange announcements by Voim ASA (the "Company"), including the announcements dated 31 March and 28 April 2026, concerning the sale of the Company's EM business pursuant to the transaction originally agreed with P-2 Riggs Capital, Inc. (the "Transaction"), and the half-year financial report published on 27 August 2026.

Since completion of the Transaction, the Company has had no operational business. Its remaining assets consist principally of a limited cash position, and its total liabilities materially exceed its total assets.

Since completion of the Transaction, the Company has not satisfied the requirements for continued listing of the Company's shares on Euronext Oslo Børs. The Company has evaluated a broad range of opportunities to establish new business activities, including numerous potential transactions within several different industries and markets. None of these has resulted in a realistic alternative that could be implemented within the time available to maintain the Company's listing.

In light of the outcome of its evaluation, the board of directors considers that there is no realistic prospect of the Company satisfying the requirements for continued listing within the time available.

The board of directors has therefore resolved to propose that the Company's general meeting approves an application for voluntary delisting of the Company's shares from Euronext Oslo Børs. An extraordinary general meeting will be convened to consider the proposal, and the notice of the meeting will be published shortly. Any delisting will be subject to approval by Euronext Oslo Børs, and that the Company secures the required amendments to the bond terms for the convertible bond loan.

The Company intends to continue actively pursuing opportunities to establish new business activities as an unlisted company. There can be no assurance that these efforts will result in a transaction or the establishment of new business activities.
