Note 1 General information

Description of business
Archer Limited is an international oilfield service company providing a variety of oilfield and renewable energy products and services through its Area organization. Services include platform drilling, land drilling, modular rigs, engineering services, equipment rentals, wireline services, production monitoring, well imaging and integrity management tools. Archer was incorporated in Bermuda on 31 August, 2007.

Archer Limited, along with its subsidiaries, ("Archer" or the "Company") is a global energy services company with a heritage in drilling and well services that stretches back over 50 years. The Company is publicly traded on the Oslo Stock Exchange under the ticker ARCH.

Archer provides drilling and well services to the global energy industry, employing 3,831 globally at 30 September 2026. Archer operates in over 40 countries, providing sustainable high-quality services and innovative technology to optimize Archer's customer's energy solutions. Archer's main operations currently take place in the major basins within Europe, Asia Pacific, North and South America and Archer is expanding throughout the Middle East, and West Africa. Archer holds a leading and technologically advanced position within plug and abandonment (P&A), delivering integrated solutions that enable safe, efficient and permanent well decommissioning in mature basins globally. Leveraging decades of operational experience, proprietary technology and engineering expertise, Archer supports operators in meeting regulatory requirements while optimizing cost and reducing environmental footprint.

The Group's operations are managed through four segments: Platform Operations, Well Services, Land Drilling and Renewables.

Platform Operations
Platform Operations delivers drilling operations, maintenance and engineering services on offshore production platforms, primarily in the North Sea and other mature basins. The segment focuses on safe, efficient and cost-effective platform drilling, modification projects and integrated operations to maximize uptime and asset value for operators. The segment also supports plug and abandonment (P&A) and decommissioning activities, leveraging Archer's platform drilling expertise and integrated service offering to deliver safe and efficient end-of-life well solutions.

Well Services
Well Services provides a broad portfolio of well intervention, wireline and downhole services aimed at improving well performance and extending field life. The segment supports customers throughout the well lifecycle, from completion and stimulation to maintenance and plug and abandonment.

Land Drilling
Land Drilling comprises Archer's fleet of high-specification land drilling rigs, primarily deployed in the Vaca Muerta basin in Argentina. With a long operational heritage in the region, the segment delivers efficient and reliable drilling services to leading operators, supported by strong local expertise, modern rig technology and a consistent focus on safety and performance in unconventional shale developments.

Renewables
Renewables leverages Archer's engineering competence, operational experience and technology to support energy transition activities. The segment provides services within areas such as offshore wind and geothermal low-carbon energy solutions.

As used herein, unless otherwise required by the context, the term "Archer" refers to Archer Limited and the terms "Company," "we," "Group," "our" and words of similar import refer to Archer and its consolidated subsidiaries. The use herein of such terms as "group", "organization", "we", "us", "our" and "its" or references to specific entities is not intended to be a precise description of corporate relationships.

Going Concern
The financial statements have been prepared on a going concern basis. This assumption is based on the liquidity position of the Group, forecasted operating results, and the market outlook for the oil service sector as at 30 September 2026.

Note 2 Summary of significant accounting policies

Basis of presentation

These interim condensed consolidated financial statements for the nine months period ended 30 September 2026 have been prepared in accordance with IFRS® Accounting Standards and IAS 34 Interim Financial Reporting. The accounting policies applied are consistent with those applied in the Group's 2025 annual financial statements. The statements were authorised for issue by the Board of Directors on 12 November 2026 and have not been audited. They do not include all the information and disclosures required in a complete set of IFRS financial statements and should therefore be read in conjunction with the Company's IFRS consolidated financial statements for the year ended 2025, which were issued on 23 April 2026.

The comparative figures for the third quarter and year to date 2025 have been restated from US GAAP to IFRS. Information on the transition from US GAAP to IFRS is provided in the Group's 2025 annual financial statements.

The amounts are presented in United States Dollars, USD, or $ rounded to the nearest million, unless otherwise stated. We present our financial statements on a continuing business basis and separately present discontinued operations. The accounting policies set out below have been applied consistently to all periods in these consolidated financial statements.

Basis of consolidation

Investments in companies in which we directly or indirectly hold more than 50% of the voting control are generally consolidated in our financial statements. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

Entities in which we do not have a controlling interest but over which we have significant influence are accounted for under the equity method of accounting. Our share of after-tax earnings of equity method investees is reported under Share of results of unconsolidated associates. A list of all significant consolidated subsidiaries is disclosed in the Annual Report 2025 - Note 37 Subsidiaries. Changes are included in Note 15 Business Acquisitions.
Intercompany transactions and internal sales have been eliminated through consolidation.

Reclassifications

Certain amounts in the prior years consolidated financial statements may be reclassified when necessary to conform to the current year's presentation.

Use of estimates

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Future events and their effects cannot be predicted with certainty. Accordingly, our accounting estimates require the exercise of judgement. While management believes the estimates and assumptions used in the preparation of the consolidated financial statements are appropriate, actual results could differ materially from those estimates. Estimates are used for, but are not limited to, determining the following: allowance for doubtful accounts, recoverability of long-lived assets, goodwill and intangibles, useful lives used in depreciation and amortization, income taxes and valuation allowances and purchase price allocations. The accounting estimates used in the preparation of the consolidated financial statements may change as new events occur, as more experience is acquired, as additional information is obtained and as our operating environment changes.

New and Amended Standards and Interpretations Not Yet Adopted

IFRS 18 – Presentation and Disclosure in Financial Statements, issued in April 2024 and effective for annual reporting periods beginning on or after 1 January 2027, will replace IAS 1. Archer is currently performing an impact assessment of the new standard and evaluating the expected effects on the Group's presentation and disclosure of financial information. The assessment is ongoing, and Archer will provide further entity-specific information on the anticipated impact as the implementation process progresses.

Note 3 Segment Information

Archer reports financial information to its Board of Directors, which acts as the Group's Chief Operating Decision Maker ("CODM"). The CODM reviews segment results to assess performance and to allocate resources. Operating segments are identified based on the nature of services provided, and the internal reports regularly reviewed by the CODM in accordance with IFRS 8 *Operating Segments*.

The Group presents its operations under the following reporting segments:

- **Platform Operations**
- **Well Services**
- **Renewables**
- **Land Drilling**

Corporate costs and corporate assets are reported separately and are not allocated to operating segments.

The accounting policies applied in determining segment information are consistent with the accounting principles used in the consolidated financial statements. The tables presented below and on the following page disclose revenues, depreciation and amortisation, operating income, capital expenditures, goodwill and total assets by segment.

Total other financial items	**(0.8)**	**(0.7)**	**(2.0)**	**(11.9)**	**(12.5)**

Foreign exchange gains for the nine months ended 30 September 2026, includes net gains of $6.4 million in subsidiaries with NOK functional currency, most of which includes FX gains related to the issued bonds and revolving credit facility which are denominated in USD. The FX gains and losses in subsidiaries reporting in NOK are partially offset in equity by translation adjustments, recognised in accumulated other comprehensive income, which result from the translation of the NOK financial statements to USD prior to consolidation.

Other financial items included costs relating to recent business acquisitions.

Note 6 Property plant and equipment

(In USD millions)	Operational equipment	Other fixed assets	Assets under construction	TOTAL
Balance at 31 December 2025	**292.7**	**22.1**	**10.2**	**324.9**
Additions	54.4	0.4	10.2	65.1
Assets acquired	0.4	—	—	0.4
Transferred from inventory	7.2	—	—	7.2
Reclassification	14.4	—	(14.4)	—
Disposals	0.0	—	—	(14.8)
Depreciation	(48.3)	(4.0)	—	(52.3)
Translation adjustments	(0.4)	0.0	0.0	(0.4)
Balance at 30 September 2026	**320.5**	**18.5**	**6.0**	**344.7**

Impairment of property, plant and equipment

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Assets for which impairment losses have been recognised in prior periods are reviewed for possible reversal when there is an indication that the impairment loss has decreased or no longer exists. The Group has not identified any indicators of impairment or impairment reversal as at 30 September 2026.

Note 7 Goodwill

Goodwill represents the excess of purchase price over the fair value of tangible and identifiable intangible assets acquired.

Goodwill

(In USD millions)	Platform Operations	Well Services	Renewables	Land Drilling	Total
Balance at 31 December 2025	**78.2**	**112.9**	**3.4**	**1.7**	**196.2**
Goodwill recognised on acquisition of Isol8	—	6.9	—	—	6.9
Working capital adjustment to purchase price of Premium	—	(0.4)	—	—	(0.4)
Translation adjustments	2.5	3.5	0.2	—	6.2
Balance at 30 September 2026	**80.7**	**123.3**	**3.6**	**1.7**	**208.9**

We test goodwill for impairment on an annual basis during the fourth quarter and between annual tests if an event occurs, or circumstances change, that would more likely than not reduce the fair value of a reporting unit below its carrying amount. The Group has not identified any impairment indicators as at 30 September 2026.

Note 8 Intangible assets

(In USD millions)	Customer relations	Trade name	Other intangible Assets	Internal developed assets	TOTAL
Balance at 31 December 2025	**13.1**	**2.1**	**8.1**	**9.3**	**32.5**
Additions	—	—	1.1	4.7	5.1
Recognized on acquisition	—	—	0.4	0.0	0.4
Depreciation	(1.1)	—	(2.3)	(0.7)	(3.9)
Translation adjustment	—	0.1	0.0	0.9	1.0
Balance at 30 September 2026	**12.0**	**2.2**	**6.7**	**14.2**	**35.1**

Impairment of Intangible assets

Intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Intangible assets with an indefinite useful life, or not yet available for use, are tested for impairment annually. Intangible assets for which impairment losses have been recognised in prior periods are reviewed for possible reversal when there is an indication that the impairment loss has decreased or no longer exists. The annual impairment test was performed as at 31 December 2025, and the Group has not identified any indicators of impairment or impairment reversal as at 30 September 2026.

Note 9 Right of use assets

(In USD millions)	Right of use Assets
Balance at 31 December 2025	**57.6**
Additions	10.1
Depreciation	(9.7)
Translation adjustments	1.1
Balance at 30 September 2026	**59.1**

Right-of-use assets mainly relate to leases for offices, workshops, storage facilities, and operational equipment, including drilling rigs. These lease agreements support the Group's operations across key locations without requiring ownership of the underlying assets.

Senior Secured Bonds

In February 2025, Archer's indirectly wholly owned subsidiary, Archer Norge AS, issued 5 year $425 million senior secured bonds, carrying a coupon of 9.5% (the "Senior Secured Bonds"). From 2026, the Company will redeem $15 million of the bonds in two annual instalments of $7.5 million each. The Company has an option to redeem the bonds at (i) the make-whole price for the first 3.0 years, (ii) at 104.75% of the nominal amount after 3.0 years until 3.5 years, (iii) at 103.8% of the nominal amount after 3.5 years until 4.0 years, (iv) at 102.85% of the nominal amount after 4.0 years until 4.5 years, and (v) at 100.5% after 4.5 years. The Senior Secured Bonds shares the same security as the Revolving Credit Facility, subject to the senior status of the Revolving Credit Facility.

The Senior Secured Bonds contains certain financial covenants, including, among others:

- The Company shall ensure that the free liquidity of the Group is at all times the higher of USD 30 million and 5.00 percent of gross interest-bearing debt.
- The Company shall ensure that the interest coverage ratio is minimum 2.00:1.

The Senior Secured Bonds contain events of default which include payment defaults, breach of obligations under the finance documents, misrepresentation, insolvency and insolvency proceedings, creditor's process and unlawfulness. In addition, there are cross-default provisions in respect of certain financial indebtedness of an obligor, subject to the thresholds specified in the bond terms.

On 10 July 2026, the Company received the proceeds from a USD 30 million tap issue under its outstanding senior secured bond due 2030.

As of 30 September 2026, the Company was in compliance with the financial covenants under the Senior Secured Bonds.

Overdraft Facilities

In connection with the Senior Secured Bonds issuance, Archer established a $75 million revolving credit facility, ranking super senior to the Senior Secured Bonds, with a tenor of 4.5 years (the "Revolving Credit Facility"). During the second quarter of 2026, the Revolving Credit Facility was increased by $20 million to $95 million. The interest on the loan is Secured Overnight Financing Rate, or “SOFR” + a margin of 300 basis points. In addition, Archer established a guarantee facility of $5 million. The total $95.0 million of the Revolving Credit Facility is carved out into two overdraft facility of $45.0 million and $50.0 million respectively (the "Overdraft Facilities"). The Revolving Credit Facility is secured by pledges over shares in material subsidiaries, assignment over intercompany debt and guarantees issued by the material subsidiaries.

The Revolving Credit Facility contains certain financial covenants, including, among others:

- The Company shall ensure that the free liquidity of the Group is at all times the higher of USD 30 million and 5.00 percent of gross interest-bearing debt.
- The Company shall ensure that the interest coverage ratio is minimum 2.50:1.

The Revolving Credit Facility contains events of default which include payment defaults, breach of financial covenants and other obligations, misrepresentation, insolvency and insolvency proceedings, creditors' process, ineffectiveness of finance documents, material adverse change and repudiation of finance documents. In addition, there are cross-default provisions in respect of certain financial indebtedness of members of the Group, subject to the threshold specified in the Revolving Credit Facility.

As of 30 September 2026, the Company was in compliance with the financial covenants under the Revolving Credit Facility.

Other loans

Other loans comprise financing arrangements related to equipment in our Well Services and Platform Operations divisions ($45.3 million), equipment and working capital in Argentina ($14.9 million), and other financing arrangements within the Group ($9.2 million).

Movements in interest-bearing borrowings

The table below provides a reconciliation of the Group's interest-bearing debt from the beginning to the end of the reporting period, distinguishing between current and non-current portions. It includes both cash flows, such as new borrowings and repayments, and non-cash movements, including changes in transaction costs and currency revaluation.

Movements in interest-bearing borrowings	2026

Change due to currency revaluation	3.3	—	**3.3**
Carrying amount as at 31 December	**430.1**	**37.8**	**467.9**

Note 11 Leases

The company has historically leased some operating assets, office and warehouse facilities and office equipment under operating leases. For material operating leases, we have recognised the relevant right of use assets and lease liabilities in our balance sheet. The leases have remaining lease terms of 1 to 12 years at 30 September 2026. Some operating leases include options to extend the leases for a further 20 years.

Details of leased assets are reported in note 9.

For the capitalisation of right of use assets, we have calculated an incremental borrowing rate, or IBR, for discounting each lease's cash-flows to arrive at an initial value for the lease liability and right of use asset. The IBR is calculated as a function of the following elements/considerations;

- Base rate – generally the inter-bank lending rate in the relevant jurisdictions,
- Credit spread – we estimate the effect of the lessee credit worthiness
- Country risk premium
- Inflation differential
- Contract term
- Security or collateral provided in the lease contract.

Significant judgment is required in estimating some of these elements. We apply a consistent methodology in estimating IBR for each lease.

We have elected not to recognise the right of use of assets and lease liability for short term leases.

The Company's leasing activities for the six-months period ended 30 September 2026 are analysed in the table below;

Lease obligations

(In USD million)	
Lease obligations at 31 December 2025	**59.4**
New lease capitalisations	10.1
Repayments	(8.5)
Translation adjustments	1.4
Lease obligations at 30 September 2026	**62.4**

Supplemental information 30 September 2026

In USD millions)	**Short term leases**	**Capitalised leases**
Interest on lease liabilities		3.1
Total lease costs	31.5	9.8
Weighted average remaining lease term in years*		14.9
Weighted average discount rate		8.5%

* Includes option extensions where we are reasonably certain that the extension will be exercised.

Note 12 Fair Value of Financial Instruments

The estimated fair value and the carrying value of our financial instruments are as follows:

Carrying value of financial instruments

(In USD millions)	30 September 2026		31 December 2025	
	Fair Value	Carrying Value	Fair Value	Carrying Value
Non-derivatives				
Cash and cash equivalents	23.7	23.7	40.6	40.6
Trade receivables	203.9	203.9	187.8	187.8
Trade payables	(142.7)	(142.7)	(92.8)	(92.8)
Senior Secured Bonds (current and non-current)	(466.6)	(436.2)	(434.4)	(418.5)
Overdraft facilities (current and non-current)	(44.6)	(44.6)	(15.5)	(15.5)
Other loans (current and non-current)	(69.4)	(69.4)	(33.8)	(33.8)
Lease liabilities (current and non-current)	(62.4)	(62.4)	(59.4)	(59.4)

The aforementioned financial assets are measured at fair value on a recurring basis as follows:

Financial assets and liabilities

(In USD millions)	30 September 2026	Fair Value Measurements at Reporting Date Using		
	Fair Value	Level 1	Level 2	Level 3
Assets				
Cash and cash equivalents	23.7	23.7	—	—
Trade receivable	203.9	—	203.9	—
Liabilities				
Trade payable	(142.7)	—	(142.7)	—
Senior Secured Bonds (current and non-current)	(466.6)	—	(466.6)	—
Overdraft facilities (current and non-current)	(44.6)	—	(44.6)	—
Other loans (current and non-current)	(69.4)	—	(69.4)	—
Lease liabilities (current and non-current)	(62.4)	—	(62.4)	—

Level 1: Quoted prices in active markets for identical assets

Level 2: Significant other observable inputs

Level 3: Significant unobservable inputs

We used a variety of methods and assumptions, which are based on market conditions and risks existing at the time, to estimate the fair value of our financial instruments. For certain instruments, including cash and cash equivalents, it is assumed that the carrying amount approximated fair value due to the short-term maturity of those instruments.

The fair value of Senior Secured Bonds is based on the last reported trading price of the Bonds prior to the close of the quarter.

The fair value of the current portion of long-term debt is estimated to be equal to the carrying value, since it is repayable within twelve months. The fair value of the long-term portion of floating rate debt is estimated to be equal to the

carrying value adjusted for the prepaid debt fees (outstanding balance), since it bears variable interest rates, which are reset on a quarterly basis. This debt is not freely tradable, and we cannot purchase them at prices other than the outstanding balance plus accrued interest.

Note 13 Equity

	30 September 2026		31 Dec. 2025	
	Shares	**$ million**	**Shares**	**$ million**
Authorized share capital	150,000,000	1.5	150,000,000	1.5
Issued, outstanding and fully paid share capital	99,495,398	1.0	99,495,398	1.0

Note 14 Earnings Per Share

The computation of basic earnings per share (EPS) is based on the weighted average number of shares outstanding during the period. Diluted EPS includes the effect of the assumed conversion of potentially dilutive instruments. The denominator used for the computation of basic and diluted earnings was computed as follows:

Weighted number of shares outstanding

(In thousands)	**Nine Months Ended 30 September**		**Year Ended 31 Dec.**
Denominator	**2026**	**2025**	**2025**
Weighted-average common shares outstanding	99,495	90,538	92,840
Effect of potentially dilutive common shares*	129	-	-
Weighted-average common shares outstanding and assumed conversions	99,624	90,538	92,840

* No dilution effect is recognised for periods reporting a net loss.

Note 15 Business Acquisitions

Acquisitions and sales in 2026

Isol8 (Holdings) Limited

On 28 May 2026 Archer Assets UK Ltd, a 100% owned Archer subsidiary, completed the purchase of 100% of the shares in an unrelated company Isol8 (Holdings) Limited a UK registered entity with two wholly owned subsidiaries, Isol8 Limited and Isol8 Inc., which have operations in the UK and USA respectively.

The Isol8 Group is involved in technology development, specialising in alloy sealing and exothermic heaters and initiators which can be used in the provision of wellbore barrier solutions. The rationale for the acquisition is the development of a market-leading plug, wellbore barrier and P&A offering through the further development and subsequent use of technology and patents owned by Isol8.

Purchase consideration of $7.4 million has been recorded in respect of the acquisition comprising:

- Deferred consideration of $1.5 million payable in two equal instalments due 12 and 18 months after the completion.
- Contingent consideration of $5.9 million (present value) forms part of the total purchase consideration.

The fair value of assets acquired is summarised below:

Fair value of assets acquired (preliminary)

	USD millions
Cash	0.3
Inventories	0.2
Other current assets	0.2
Property plant and equipment	0.3
Patents	0.3
Deferred tax asset	1.0
Current liabilities	(0.7)
Shareholder loan	(1.1)
Net Assets	**0.5**

The $6.9 million excess of the purchase consideration over the fair value of the assets is recognized as goodwill, which represents the assembled workforce and experience and know-how acquired, and synergies within Well services segment.

In addition to the purchase consideration detailed above, an additional payment of $1.1 million was contributed as a shareholder loan.

Sale of workover business in the southern part of Argentina

During the fourth quarter of 2025, we initiated the sale of our remaining workover and pulling unit business in the southern part of Argentina. The market for workover services in this region has been declining, driven by reduced activity in conventional oil production in southern Argentina. The divestment represents a further reduction of risk and exposure in a structurally declining market. Going forward, Archer's strategic focus is to grow its drilling business in the expanding unconventional market in Vaca Muerta.

The sale of 12 workover units and 12 pulling units was completed on 30 January 2026. The transaction involved the transfer of all assets and liabilities related to the workover business, including approximately 750 employees.

As a result of the expected loss on the sale, a total impairment loss of $25.3 million was recognised in 2025. This loss relates to the impairment of assets classified as held for sale following the decision to divest the business.

Upon finalisation of the transaction in the first quarter of 2026, including the settlement and write-off of intercompany balances, an additional loss of $1.0 million was recognised.

Acquisitions and sales in 2025

Premium Oilfield Services LLC

In September 2025 Archer Well Company Inc, a 100% owned Archer subsidiary, agreed to the purchase 100% of the members' interests in Premium Oilfield Services LLC, (or "Premium"), from Composite Intermediate Holdings LLC, an unrelated third party for $20.7 million. Premium is engaged in the provision of wireline, thru-tubing fishing, and whipstocks services in the North American oilfield market. The fair value of assets acquired is summarised below:

Fair value of assets acquired (preliminary)

	USD millions
Cash	1.1
Receivables	8.5
Inventories	1.3
Property plant and equipment	11.5
Intangible assets:Trade name and customer relations	3.2
Lease obligations	(4.5)
Payables and other liabilities	(3.6)
Net Assets	**17.4**

The $3.25 million excess of the purchase consideration over the fair value of the assets is recognized as goodwill, which represents the assembled workforce and experience and know-how acquired, and synergies within Well services segment.

Wellconnection Norway AS and Wellmaching AS

In June 2025 Archer AS agreed to the purchase of two subsidiaries, Well Machining AS and Wellconnection Norway AS from Wellconnection Group AS, an unrelated third party for NOK 30,200,000, or USD 3.0 million. Wellconnection is a provider of well services and has historically provided services to our Well Services division. The purchase will assist in continuity of supplies necessary of Archer's service offering. In addition to cash price of NOK 30.2 million, Archer has assumed NOK 27.2 million of shareholder loans payable to the acquired entities. The fair value of assets acquired is summarised below:

Fair value of assets acquired (preliminary)

	USD millions
Cash	1.6
Receivables	3.1
Inventories	0.1
Property plant and equipment	2.1
Intangible assets: Research and development	0.2
Deferred tax	1.2
Payables and other liabilities	(7.8)
Net Assets	**0.5**

The $2.5 million excess of the purchase consideration over the fair value of the assets is recognized as goodwill, which represents the assembled workforce and experience and know-how acquired, and synergies within Well services segment.

The table below shows the revenues and net results included in our consolidated 2025 financial statements relating to the acquisitions above, and corresponding pro forma figures which would have been included had the acquisitions occurred January 1, 2025.

Additional data in USD millions

Acquisition	Included in 2025 consolidated income statements		Full year 2025	
	Revenue	Net result	Revenue	Net result
Wellconnection	1.9	(0.2)	3.2	2.8
Premium Oilfield Services LLC	6.9	0.5	29.2	2.1
Total	**8.8**	**0.3**	**32.4**	**4.9**

D&K Logistics Grandeur Pte Ltd.

On 15 May 2025 Archer Holdco LLC, a 100% owned Archer subsidiary, entered into an agreement to purchase D&K Logistics Grandeur Pte Ltd, a special purpose entity (or "SPV") based in Singapore from Luca Energy Private Limited, an unrelated third party. The SPV holds one asset, a modular unit, the Asian Pearl 101 drilling rig, which will be deployed by Archer's platform operations division. The purchase is accounted for as an asset acquisition. The SPV was purchased for $4.7 million, being the fair value of its single asset.

Sale of part of Land Drilling operations

During the second quarter 2025, we sold part of our land drilling operations, comprising two rigs and associated assets and liabilities to Pan American Energy, for $4.6 million. The transaction resulted in the recognition of a loss on sale of $8.7 million.

Note 16 Income Tax

Income Tax
Income tax expense for the nine months ended 30 September 2026 was $7.3 million. (Nine months ended 30 September 2025: $(2.6) million).

The Group's effective tax rate (ETR) for the period was 42.4% (Nine months ended September 2025: 11.9%). The ETR reflects the distribution of profits and losses between jurisdictions. While taxable profits generated income tax expense in certain jurisdictions, losses incurred in other jurisdictions did not result in a corresponding tax benefit due to unrecognized deferred tax assets. This mismatch between taxable profits and losses across the Group resulted in an elevated effective tax rate for the period.

Deferred tax assets and liabilities
Deferred tax assets decreased by $5.6 million during the period (Nine months ended September 2025: increase by $18.5 million). The decrease in deferred tax assets is primarily due to taxable profits in Norway, resulting in a reduction of tax loss carryforwards.

Deferred tax liabilities decreased by $0.2 million.

No material uncertain tax positions were recognised or resolved during the period. There have been no changes in applicable tax rates or tax laws that significantly impact the Group’s tax position.

Management continues to assess the recoverability of deferred tax assets on the basis of expected future taxable profits.

Note 17 Commitments and contingencies

Purchase commitments

As of 30 September 2026, we have committed to purchase obligations including capital expenditures amounting to $49.6 million.

Contingencies

For recent acquisitions, contingent consideration is discussed in note 15 above. In relation to the acquisition of Iceland Drilling, the minority shareholder has a contractual option to sell its shares to Archer, with the exercise price determined based on a valuation linked to Archer's trading multiple and an EBITDA-based valuation of Iceland Drilling's historical performance.

The Group has recognised receivable balances relating to change orders, variation orders and other claims associated with an offshore wind project within the Renewables segment. These receivable balances are material to the Group's financial statements and require significant management judgement, including the assessment of contractual entitlement, expected consideration and recoverability. While management believes the recognised balances appropriately reflect the amounts expected to be recovered based on information available at the reporting date, the ultimate outcome of ongoing commercial discussions and claim resolution processes may differ materially from the receivable balances currently recognised based on current estimates and could result in material future adjustments to the recognised amount.

The Group has recognised a claim receivable relating to alleged defects in supplies and services provided by a subcontractor identified in connection with the offshore wind project. The assessment of the related claim receivable requires significant management judgement, including the evaluation of contractual rights, available evidence, and recoverability. While management believes the recognised balance of the claim appropriately reflects the expected recovery based on information available at the reporting date, the amount ultimately recovered may differ materially from the amount currently recognised.

Legal Proceedings

From time to time, we are involved in litigation, disputes and other legal proceedings arising in the normal course of our business. We insure against the risks arising from these legal proceedings to the extent deemed prudent by our management and to the extent insurance is available, but no assurance can be given that the nature and amount of that insurance will be sufficient to fully indemnify us against liabilities arising out of pending and future legal proceedings. Many of these insurance policies contain deductibles or self-insured retentions in amounts we deem prudent and for which we are responsible for payment. If there is a claim, dispute or pending litigation in which we believe a negative outcome is probable and a loss by the Company can be reasonably estimated, we record a liability for the expected loss. As of 30 September 2026, we are not aware of any such expected loss which would be material to our financial position and results of operations, nor are we involved in any litigation or arbitration proceedings which may have a significant effect on our financial position or profitability.

Note 18 Investment in Associates and Joint Ventures

We have the following participation in investments that are recorded using the equity method:

	30 September 2026	31 Dec. 2025
dSolve AS	20%	20%
Exacte AS	24.8%	—

Book value at 30 September 2026	**5.1**

Exacte AS

During the second quarter of 2026, Archer Norge AS acquired 22% of the shares in Exacte AS ("Exacte"), an unrelated technology company based in Norway. Archer has collaborated with Exacte over several years in the development of software and technology solutions related to the maintenance and optimization of drilling equipment. Prior to the investment, Archer provided funding and support to Exacte's development activities. Archer's participation in the future value creation of the technology is through its equity ownership in Exacte. During the third quarter of 2026, Archer made an additional investment of USD 0.2 million in Exacte through capital increase. Following this, Archer's ownership interest in Exacte increased from 22.0% to 24.8% as of 30 September 2026.

dSolve

During 2025, we paid $2.15 million to acquire 20% of a dSolve AS (or "dSolve") an unrelated, startup-company based in Trondheim, Norway, with the vision to pioneer rigless subsea plugging & abandonment, using electrochemical steel removal technology. The share purchase agreement provides Archer with an option to purchase the remaining 80% of the company in the future, after twelve months and on the occurrence of certain conditions including the successful commercialisation of the dSolve technology. If the development of the technology is successful an additional contingent consideration is payable, and Archer will have exclusive rights to use the technology in the provision of services to our customers. We have accrued additional estimated contingent purchase consideration of $1.5 million.

Archer Elemental UK Limited and Archer Elemental Norway AS

We have entered into a joint venture with Elemental Energies Group, a wells focused engineering and consultancy provider, focusing on the upstream decommissioning and low carbon energy sectors, with a view to providing more fully integrated services. We have agreed with the co-investor that Archer will contribute 60% of funding and will own 60% of the joint venture entities. Capitalisation of the joint venture companies shall be on a pro-rata basis based on the respective shareholding. As Archer does not control the entity, the investment is accounted for using the equity method.

Note 20 Subsequent Events

On 16 October 2026, Archer was awarded an additional three-year drilling contract with YPF in Vaca Muerta, Argentina, with a two-year extension option and an estimated contract value of USD 100–110 million over the full five-year period.

Subsequent to quarter-end, Archer entered into a technical and commercial partnership with AMRTUR in Brunei, with the first project supporting a five-year slickline services contract with a major operator.

On 21 October 2026, Archer announced a temporary pause in shareholder distributions and that it will evaluate strategic options for Archer Wind, including a partial or full divestment.

On 5 November 2026, Archer was awarded an additional two-year drilling contract with Vista in Vaca Muerta, Argentina, with a one-year extension option and an estimated contract value of USD 35–40 million over the full three-year period.

Appendix to Third Quarter 2026 Report

Archer prepares its consolidated financial statements in accordance with IFRS® Accounting Standards as adopted by the EU. In addition to these measures, management uses certain non-GAAP performance metrics that it believes provide stakeholders with supplemental insight into the company's operational performance and enhance comparability between periods.

One such non-GAAP measure is Adjusted EBITDA, defined as earnings before interest, taxes, depreciation and amortization, adjusted for items identified by management as special charges or non-recurring in nature. Adjusted EBITDA is not a defined measure under IFRS and should therefore not be viewed as a substitute for measures such as operating income, net income, or other IFRS-based financial information.

The following table presents supplemental financial data and a reconciliation of Adjusted EBITDA to the most directly comparable IFRS measures for the three months ended 30 September 2026, 30 June 2026, 31 March 2026, 31 December 2025; 30 September 2025. Non-GAAP financial measures should be considered in addition to, and not as an alternative to, the company's reported results prepared in accordance with IFRS.
