Envipco expands UK retail reach through additional preferred supplier agreement

Amersfoort, 13 November 2026 – Envipco Holding N.V. ("Envipco" or "the Company"), a leading global provider of recycling systems and Reverse Vending Machine (RVM) technology, has secured an additional preferred supplier agreement in the UK, broadening its reach among retailers preparing for the introduction of Deposit Return Scheme (DRS) for beverage containers.

The agreement provides Envipco with an additional route to market through a major UK wholesale buying group, with the potential to reach thousands of independent retailers ahead of the UK's Deposit Return Scheme, scheduled to launch on 1 October 2027. The commercial impact is expected to develop progressively as participating retailers evaluate and deploy reverse vending equipment ahead of DRS implementation.

Group CEO José Matthijsse commented: *"This additional preferred supplier agreement broadens our access to independent retailers and complements our major-chain wins in the UK. We are building multiple routes to market ahead of the October 2027 DRS launch, positioning Envipco to serve a wider customer base as retailers prepare for implementation."*
